The students come to us looking for knowledge and experiences, and it's our job to give all of ourselves to them.

They are more dedicated to students' success than some of the students themselves.

Woman instructor:

I love being in the classroom, I love teaching, I love biology, and I think that comes across because they always comment me and we have a lot of fun.

They will go above and beyond their job description and titles to do whatever they can to make sure that the student succeeds.

I love JJC because of the opportunities that it provided me. They just took me under their wing and made me feel that whatever I wanted to do in the world, they could help me do it.
