

The Lump Sum Bid Price above EXCLUDES all applicable sales, consumer, use and other similar taxes for the project on the equipment and materials to be incorporated into the work (project is tax-exempt); INCLUDES all insurance premiums required to meet Schedule "A" - Insurance Specifications; and INCLUDES all premiums for Performance and Labor & Material Payment Bonds in the sum of one hundred ten percent of the Contract price.

- C. Bidder agrees that upon award of the contract by Joliet Junior College if written notice of the acceptance of this bid is mailed or delivered to the undersigned within sixty (60) days after the Proposal Due Date, or any time thereafter before it is withdrawn, the undersigned shall meet with representatives of Joliet Junior College and Gilbane Building Company at Joliet Junior College's office or at a mutually agreed upon location to execute the contract which is included as an Exhibit within this Project Manual. The Trade Contractor's contract will be held by and made with Joliet Junior College; Gilbane Building Company will be acting on the behalf of Joliet Junior College as their Construction Manager (agent). A Performance Bond and Labor & Material Payment Bond will be delivered to the Construction Manager at the time of execution of the Contract on the form contained within the Project Manual identifying Joliet Junior College and Gilbane Building Company as dual obligees. Failure to execute said contract within ten (10) days after receipt of written Notice to Proceed may be considered a default under the obligation of the bid bond. Insurance certificates shall be provided before starting on-site activities if such activities occur before the Contract is signed.

By submitting its bid, the Bidder hereby agrees that the Owner may, in its sole discretion, decide which combination of base bid plus alternates, (if any) would provide the Owner with the most efficient expenditure of the Owner's funds with respect to any particular Bidder. Owner's selection and determination of which combinations of base bid plus alternates (if any) would provide the most efficient expenditure of the Owner's funds shall form the basis of awarding the contract. By submitting its bid, Bidder further agrees that the sum total of the base bid plus alternates (if any) as so determined by the Owner separately for each Bidder shall be deemed to be such Bidder's bid for purposes of determining the lowest responsible Bidder for such portion of the work or for such bid package. Such determination by the Owner shall not be subject to challenge by the Bidder.

- D. The above price includes all stipulations and requirements of Supplement Numbers: \_\_\_\_\_, which have been received and accepted by the undersigned.

- E. MILESTONE SCHEDULE DATES

See the Draft Milestone/Sequencing Schedule for reference. Dates and durations given are for reference only and are subject to change. Each awarded Trade Contractor, within 30 calendar days of being notified of their award, shall provide a CPM schedule (utilizing Primavera Project Planner or SureTrack software) to the Construction Manager defining scope of work items, items requiring fabrication, etc.; each with their respective anticipated start dates, end dates and durations. Trade Contractor is to identify any areas of potential conflict which may impact the Draft Milestone/Sequencing Schedule durations and/or milestones and/or prevent the Trade Contractor in meeting the expected start and finish dates identified in the Draft Milestone/Sequencing Schedule. All work is to be completed in accordance with the Draft Milestone/Sequencing Schedule Dates as follows:

Bid Release 21- Milestone Schedule Dates (Estimated)

	<b>Start</b>	<b>Finish</b>
Bid Proposals Due	-	12/16/10

I. ALTERNATE PRICES

An Alternate Price shall include all costs associated with the changes, omissions, additions or other adjustments to the Work of this Bid Package (Contract), which are described in the Alternate, or are reasonably inferable there from. Claims for extras resulting from changes caused by the acceptance or rejection of any Alternate will not be allowed. Alternate prices shall also include all costs of overhead, profit and bond costs associated with the work of the Alternate, whether additive or deductive.

The Drawings, Specifications and other Contract Documents shall be considered appropriately modified by either the acceptance or rejection of the various Alternates. The Owner and the Construction Manager expressly reserve the right to accept or reject any, or all, Alternate Prices, and in any sequence. If any combination of alternates is accepted, the classrooms identified must be completed within the time periods provided.

Alternates:

None

J. COST ALLOWANCES

The Bidder includes the following Cost Allowances in the total Lump Sum Amount of the Base Bid for this Bid Package. See General Conditions for definition of Allowances.

**The Trade Contractor must include the cost of the allowances in the Base Bid. The Base Bid cost of this package should include the appropriate mark-up on the allowances. All work completed under the allowance will be paid at cost since the mark-up is incorporated in the base bid. Trade Contractors are not entitled to any unspent balance.**

**Cost Allowances:**

1	<p>General Cleanup Allowance: Notwithstanding the Trade Contractor's obligation for his own cleanup under the general conditions, include in the base bid a sum of \$75.00 for every 80 man-hours (or fraction thereof) actually expended on-site regardless of trade or labor classification. This cost will be used for cleanup of unidentifiable trash and debris as directed by the Construction Manager, and will be deducted from the Contract Sum periodically to pay for cleanup services. Trade Contractors are not entitled to any unspent balance. Costs for this scope of work item are over and above costs for cleanup required by the general conditions. This requirement does not eliminate this Trade Contractors responsibility for the daily clean up of his/her work efforts. The formula for this fee is as follows: <u>Total Man hours</u> x \$75.00 = \$ CLEANUP FEE 80</p> <p>Bidder to fill in: _____ man-hours</p>	<p>\$ _____ <b>(Bidder to Fill In)</b></p>
2	<p>Include in your base bid an additional 400 man-hours for touch-up painting of walls, door frames, other painted surfaces, etc. due to unknown causes. Man-hours expended for this item of work shall be</p>	

**BP 09J Gypsum Wall Board, Painting, and Wall Covering Work**

	directed by the Construction Manager. Include the cost of material and labor for this touchup work in your base bid. Please note the labor and material required for this item of work shall not be used for this Contractor's punchlist items or work otherwise required in this bid package. Hours expended to be tracked on a Time & Material ticket. Unused hours will be deducted from the contract.	\$ _____ <b>(Bidder to Fill In)</b>
3	Miscellaneous Work Allowance: Miscellaneous work to be completed at the direction of the Construction Manager	\$40,000
4	Miscellaneous Drywall Patching Allowance: Miscellaneous work at new building area to be completed at the direction of the Construction Manager	\$15,000
5	Miscellaneous Painting Allowance: Miscellaneous paint touch-up work to be completed at the direction of the Construction Manager.	\$15,000
6	Miscellaneous Drywall Patching Allowance: Miscellaneous drywall patching allowance in existing buildings to be completed at the direction of the Construction Manager.	\$20,000

**K. COST AND QUANTITY BREAKDOWN**

In order to properly evaluate the Proposal, provide the following information. The Scope of Work to be awarded will not be influenced by the cost and quantity information requested here. Do NOT include the cost of any alternates in base bid or in the following information. Cost and quantity breakdown shall include all related work to the subject category.

**L. SCOPE OF WORK**

1. Description of Work Included:

Except for those items (if any) specifically noted in the section below entitled "Work Excluded From This Bid Package", the work of this Bid Package shall INCLUDE, but is not necessarily limited to, all of the following:

- a. All items of work required by, and/or specified in, those sections of the Specifications which are listed herein under Section M SPECIFICATIONS – Specific Sections.

**BP 09J Gypsum Wall Board, Painting, and Wall Covering Work**

---

- b. All items of work related to the "Scope of Work", which are indicated in the Specifications which are listed herein under Section M SPECIFICATIONS – Related Sections.
- c. All items of work related to the "Scope of Work", which are shown on the Drawings listed herein under Section N CONTRACT DRAWINGS.
- d. The following "Specific Items to be Included" are related to those required by the above referenced documents and are to be provided under, and hereby form a part of, the Scope of Work of this Bid Package (Contract). Should any conflict exist between this written Scope of Work and any scope items implied by the above referenced documents, this Scope of Work shall govern.

**SPECIFIC ITEMS TO BE INCLUDED**

Perform complete **"Gypsum Wall Board, Painting, and Wall Covering Work"** and related work as required by and in accordance with the Conditions of Contract, Drawings, Specifications, and elaborations below. The Work shall include all labor, materials, equipment, and related items necessary to complete all of the work defined in the following specification sections, except for those noted exclusions or clarifications listed below.

In general, the following clarifies the scope of work to be included. It is intended for clarification and convenience only and is not intended to limit any portion of the scope of this bid package.

1. Provide and install complete all Gypsum Wall Board systems (including lead lined drywall, all interior/exterior Painting, high performance coatings, all floor sealers (other than curing compound sealers), and all interior Wall Covering (inclusive of all digital art/graphics wall covering), all as further indicated in the contract documents. Install complete all wall/corner guards and wall/door protection including all necessary blocking and accessories.
2. Perform and complete all gypsum board work (partitions, soffits, fascias, ceilings, etc.), including all metal stud framing, all gypsum board, cement board, insulation, framing components, joint treatments, and accessories.
3. Provide complete gypsum ceilings grid systems, hangers, supports, and other accessories for a complete installation.
4. Because of the congestion above ceiling, drywall partition top tracks will need to be installed prior to the above ceiling ductwork, plumbing, piping, fire sprinkler and electrical work in a large portion of the project. MEP trades will layout, on the floor, wall opening penetrations to be framed and they will install sleeves so the drywall work above ceiling, can proceed prior to the above ceiling ductwork, plumbing, piping, fire sprinkler and electrical.
5. Base bid to include the drywall at partition tops to be Dens Armor Plus type.
6. Provide all supplemental framing and support for work supported or suspended from the work of this bid package, including access panels, fire extinguisher cabinets, fire valve cabinets, etc. Provide all supplemental framing and support to bridge around interferences such as ductwork, equipment, etc., including trapeze hangers, and to support the work of others (light fixtures, grilles, diffusers, devices, etc.). This Trade Contractor must review the MEP drawings and include any costs for the supplemental framing and supports within the base bid.
7. Perform and complete all Fire Resistant Panel and High Impact Gypsum board work.
8. Provide all building insulation in soffits, partitions, stud framing and similar conditions.

**BP 09J Gypsum Wall Board, Painting, and Wall Covering Work**

---

9. This work includes the replacement/new installation of drywall ceilings at existing campus buildings where utilities extension is taking place at locations as shown on the documents. This Trade Contractor is responsible for patching existing plaster ceiling at locations of any demolition work.
10. Perform interior drywall partition layout in advance of the installation of the partitions as required for the use of other trades. This additional mobilization will be only to install top track to structure to define interior partitions prior to the scheduled installation of overhead piping and ductwork in each area. This mobilization shall be included in the cost of the base bid.
11. Provide all caulking, sealants, backing material and incidentals required in drywall work as detailed and specified, including all sealants where the drywall work abuts with other trades work. Caulk at perimeter of all hollow metal frames in drywall partitions. Provide all sound insulation and all acoustical sealant at all partitions and ceilings provided under this bid package. Provide all firesafing and firestop sealant at the top of all partitions, in deck flutes, and where the work of this package abuts other materials and as detailed and specified.
12. Provide all wood blocking and bracing within drywall partitions ceilings or soffits integral to the construction of wall or ceiling assemblies. This Trade Contractor will provide all blocking as required for supporting toilet accessories, marker boards/tack boards, wall mounted TV's, toilet partitions, and other equipment from drywall partitions. It is the responsibility of this Trade Contractor to install all wood blocking required for casework attached to metal studs or drywall and to provide bracing and blocking as necessary to ensure the stability and integrity of the overall stud wall assemblies. Coordinate location and installation of blocking or backing with the other Trade Contractors.
13. This Trade Contractor to coordinate hollow metal frame installation with the General Trades Contractor. Anchor hollow metal frames already set and plumbed by others in drywall partitions. This Trade Contractor to verify location and will be responsible for final plumb and location of frames.
14. Install all access doors in wall and ceiling systems of this bid package as detailed. Access doors and location for MEP systems not shown will be furnished by others and installed by this Trade Contractor. Coordinate locations with trade contractors requiring access.
15. Provide all drywall partitions and ceilings layout. Control lines will be provided by the Construction Manager.
16. Provide complete the rated partition head conditions at all required locations per the drawings including framing, gypsum board, gypsum liner, steel straps, batt insulation, fire sealant and metal trim.
17. Provide expansion joint assemblies integral to the work of this bid package, including ceiling to ceiling and ceiling to wall expansion joints.
18. Provide control joints in walls and ceilings as detailed or as required by standard installation practices.
19. At the Exterior Stud conditions the EIFS contractor shall provide the board and batt insulation at locations where there is exterior gypsum board sheathing on both sides of the cold formed metal studs. This Trade Contractor is responsible for providing board and batt insulation at all other conditions as shown on the contract documents. This Trade Contractor is also responsible to make insulation and vapor barrier systems continuous and uninterrupted between your work and the work of the masonry, EIFS and glass/curtainwall systems per the contract documents.
20. Provide all sound insulation and all acoustical sealant at all partitions and ceilings provided under this bid package.
21. This Trade Contractor shall review all means of building access and make provisions to ensure that equipment will fit through permanent doorways and/or structure.

22. Provide all interior and exterior painting, transparent finishes, and floor sealers. This trade contractor's work shall be complete in every respect for all construction even though every item may not be specified or detailed to be painted.
23. Paint exposed structure as indicated in the contract documents including, but not limited to, structural steel, the ceiling and MEP piping at the stairs not receiving a finished ceiling, etc.
24. This trade contractor should assume that all steel to be painted or to receive a high performance coating will be un-primed and exposed to the elements for 9 months when determining surface preparation costs.
25. Paint all miscellaneous metals items including but not limited to stairs, railings, handrails, guardrails, etc as indicated on the contract documents.
26. Provide and install complete all wall coverings including all wall coverings with digital graphics.
27. Provide all sealing of concrete floors as specified in the bid documents. Cleaning and prep work as required are part of base bid also.
28. Protect all adjacent surfaces (inclusive of floors) from overspray, spills, etc. Second finish coat will be installed after ceiling installation as directed by the Construction Manager; this may require a separate mobilization. Painting Trade Contractor shall be required to cut-in the second finish coat around installed ceiling grid. This trade contractor is responsible to cut-in the second finish coat around installed ceiling grid and other finishes. Remove protection after completion of painting, as directed by the Construction Manager, and clean/repair all damaged areas as necessary and required. The Final Coat to be installed after all other finishes (ceilings, millwork, flooring, cabinets, MEP trim, etc) are completed.
29. Provide all sealants and caulking as shown or where your work abuts the work of others.
30. Include in your base bid an additional 400 man-hours for touch-up painting of walls, door frames, other painted surfaces, etc. due to unknown causes. Man-hours expended for this item of work shall be directed by the Construction Manager. Include the cost of material and labor for this touchup work in your base bid. Please note the labor and material required for this item of work shall not be used for this Contractor's punchlist items or work otherwise required in this bid package. Hours expended to be tracked on a Time & Material ticket. Unused hours will be deducted from the contract.
31. Clean and prepare all surfaces to be painted as recommended by the specifications and coating manufacturers. Provide finish sanding as required to provide a suitable surface for painting and de-gloss any factory-applied primers as required to provide a suitable surface for painting. Provide all filler and spackle for irregularities and minor cracks.
32. Remove and reinstall all switch plates, escutcheons, hardware, and other trim pieces, apply protection and remove the same after completion of the painting work. Do not paint over any fire rating labels or equipment tags. Remove all factory-installed protection or tape over equipment and door/frame labels to expose labels after finish painting.
33. Provide all moisture content testing on all subsurfaces to receive this trade contractor's work. Gilbane is to be notified verbally immediately and in writing within 24 hours of all tests that are above the specified limits.
34. Provide plastic frame protectors on all hollow metal frames after the second finish coat is completed, until directed to remove the protectors by the Construction Manager. Touch-up all frames as required after removal of the protectors as part of the base bid.
35. Do not store framing and/or finish system materials on the floors unless given prior authorization by the Construction Manager.

36. Include 2 additional mobilizations in the scope for phasing of work.
37. Coordinate, through the Construction Manager and with other Trade Contractors for the installation of work by others affected by the work of this package. This Trade Contractor shall cooperate by providing advance notice to the Construction Manager and shall schedule its work activities in such a manner as to avoid delays in the performance of its own work or the work of others.
38. This project intersects with existing buildings. It is this Trade Contractor's responsibility to field verify all existing conditions prior to fabrication. Any rework, field adjustments, re-fabrication, dismantling and re-installation will be at this Trade Contractor's own expense.
39. For work being completed within occupied areas of the existing campus buildings, this Trade Contractor shall perform all work during non-operational hours of the campus (10PM-6AM Maintenance Window). Contractor must provide a minimum of 48 hour notice to the Construction Manager.
40. Work being completed in occupied areas over an extended duration, the Trade Contractor must provide a detail schedule of activities and locations in which work will be occurring.

#### GENERAL PROVISIONS

1. The word Trade Contractor and the word Subcontractor are used interchangeably in the documents. Therefore where the words Trade Contractor or Subcontractor are used in the document, it shall mean a Contractor having a contract with the Owner unless it is apparent by the content of the usage that the Subcontractor reference is assumed to be a Subcontractor to a Contractor having a contract with the Owner.
2. This trade contractor shall protect all adjacent areas of work. Remove protection after completion of work of this bid package and repair all damaged areas as necessary and required.
3. This Trade Contractor shall make arrangements with the Construction Manager for any storage provisions prior to mobilization. Outside storage must be coordinated with Gilbane. All areas disturbed by the action of the Trade Contractor shall be returned to their original condition at no additional expense to the owner.
4. Electronic Data and Documentation Submittal (e-Doc): Trade Contractors shall provide construction documentation in electronic documentation to support the Owner's computerized asset, maintenance, or space management systems for: Equipment tagging, Updated as-built drawings, Submittal of Construction Documents, Asset Data, etc. Updated monthly and all submittals shall be completed prior to substantial completion. Refer to Manual 1 for more information on e-Doc.
5. Should the Plans or Specifications disagree in themselves or with each other, the Trade Contractor shall provide the better quality or greater quantity of work and/or materials unless otherwise directed by written addendum to the contract.
6. Each Trade Contractor is required to provide and maintain covers for any openings/ penetrations resulting from their scope of work until permanent installation is complete.
7. This bid package construction work is phased will require multiple mobilizations to be include in the base bid as appropriate to accommodate various areas of construction required to complete the work.
8. This Trade Contractor shall review all means of building access and make provisions to ensure that equipment provided by this Bid Package will fit through permanent doorways and/or structure.

9. This Trade Contractor is cautioned that its work will control the schedule of some of the work of other Trade Contractors. The schedule for this package is not an independent activity that can be completed early without concurrence from other effected Trade Contractors. This provision shall be considered as a part of the cost of this Bid Package.
10. Each Trade Contractor shall field verify all existing conditions as required prior to commencing of work and shall make whatever modifications necessary to facilitate the installation of new work. Trade Contractor shall immediately notify the construction manager in writing of his findings, especially upon finding unsatisfactory conditions that may affect his work and the quality of the work of others.
11. This Trade Contractor shall be responsible to maintain an accurate record of deviation and changes in the work and reasons thereof. The Construction Manager and Architect may elect to review the status of these documents on a monthly basis. Failure on the part of the Trade Contractor to maintain the As-Built Documents will be cause to reject the Trade Contractor's monthly payment request in part or in total until the condition is corrected and the record documents are updated to reflect site conditions.
12. Where the General Requirements or the Technical Specifications indicate that the Trade Contractor will be "directed by" or "as indicated or designated by" the Architect all such directions, indications and/or designations etc., shall be through the Construction Manager. All work performed by a Trade Contractor as directed by or as indicated or designated by the Owner, its consultants or the Architect which has not been communicated to the Trade Contractor through the Construction Manager shall not be an added cost to the Trade Contractor's contract with Gilbane and may be subject to rework at the expense of the offending Trade Contractor or Trade Contractors.
13. All debris and materials demolished by this Trade Contractor shall be removed from the project site daily. Stockpiling of debris on the site will not be permitted. Dumpsters for the completion of this work shall be provided by the General Trades contractor.
14. For this project, Gilbane has adopted a policy to reduce the amount of construction waste being sent to landfills by 75%. To that end, each Trades Contractor will be required to provide documentation indicating that at least 75% of their contracted construction work waste shipped from this project has been recycled. This trade contractor will be required to comply with Gilbane's construction waste management plan which is included in the front ends. Gilbane will be monitoring the progress of the successful bidder and may recommend to the Owner to terminate his/her contract for non-performance. The following documentation will be required on a monthly basis in order to determine compliance with the waste recycling policy:
  - Monthly yardage reports of all waste shipped from the project site.
  - Monthly recycling rates for the facility in which the waste is being shipped to for processing.Please refer to the "WASTE MANAGEMENT PLAN" and project LEED Requirements for further instructions.
15. Site Benchmarks will be provided by the owner (3). Each Trade Contractor is responsible for their own layout utilizing these benchmarks only.
16. Use of Elevator in the existing building is prohibited for use by any Trade Contractor.
17. Provide a "long lead" item listing for the following, but not limited to: equipment and materials, which are required for early order to meet the project schedule. Provide this as a separate document on company letterhead and include within two weeks of receiving the contract from Gilbane.

18. There will be limited storage and field office areas available on site. These areas may be available for short periods of time and office/storage locations will need to be relocated to accommodate construction activities. This Trade Contractor shall make arrangements with the Construction Manager for any office or storage provisions prior to mobilization. All site areas disturbed by the action of this Trade Contractor shall be returned to its original condition at no additional expense to the owner. Trade Contractor shall coordinate all staging and storage with the Construction Manager inclusive of but not limited to, trailers, tool sheds, storage areas, etc.
19. Securely cover and tie down all materials nightly or when high winds are forecast to prevent damage and wind-blown debris.
20. Coordinate with the Construction Manager the delivery, storage, crane pick points, and laydown areas for the material consistent with the Site Utilization Plans. All erection shall be from outside the building. No erection equipment such as cranes, derricks, etc. will be permitted within the building lines. Any access, erection, cribbing, pads, mats, ramps, etc. required for cranes, hoists, etc. shall be provided, maintained and removed by this Trade Contractor. This requirement will include all mats which may be required for equipment movement on-site under wet conditions or foul weather.
21. This Trade Contractor shall submit complete shop drawings for the Construction Manager and Architect's review prior to commencing work.
22. Any housekeeping pads incidental to this scope of work shall be included in the base bid.
23. All abatement of hazardous materials (if and where applicable) will be conducted by the owner. The Trade Contractor must notify the Construction Manager immediately about any suspect material.
24. The Trade Contractor's Project Manager shall be responsible to maintain an accurate record of deviation and changes in the work and reasons there of. The Construction Manager and Architect may elect to review the status of these documents on a monthly basis. Failure on the part of the Trade Contractor to maintain the As-Built Documents will be cause to reject the Trade Contractor's monthly payment request in part or in total until the condition is corrected and the record documents are updated to reflect site conditions.
25. Trade Contractor shall immediately notify the Construction Manager in writing of his findings, especially upon finding unsatisfactory conditions that may affect his work and the quality of the work of others.
26. The campus is an extremely busy site. Traffic patterns can be very congested at times and parking lots can fill up quickly. Extreme caution should be used at all times when entering and exiting the site.
27. Each Trade Contractor shall coordinate their work with the works of other trades and with the Construction Manager.
28. The Owner has employed a testing agency for this project. This Trade Contractor shall conform to all testing requirements as identified within the Contract Documents. The Trade Contractor shall provide 48 hour notice to the Construction Manager prior to date testing agency needs to be on site to perform tests.
29. In addition to the requirements for safety defined in the Conditions of Contract and the Construction Manager's Safety Plan, the Trade Contractor shall submit within two weeks of Notice to Proceed a detailed safety plan defining it's intentions and procedures to be used on the project to comply with all requirements of OSHA and Project Safety Program, including work rules, fall protection, hoisting procedures, protection of other trades and finished materials, etc.

**BP 09J Gypsum Wall Board, Painting, and Wall Covering Work**

- 30. This Trade Contractor must include all costs necessary to address the requirements of the Safety and Project Quality Plan included in the Project Manual.
- 31. This Trade Contractor is required to fill out a Gilbane daily report and turn in to Gilbane on a daily basis.
- 32. This Trade Contractor shall be responsible for their cleanup and debris removal. Dumpsters for the general use of all trades shall be provided by the General Trades Contractor.
- 33. This project shall pursue a LEED certification with the United States Green Buildings Council (USGBC); see specifications for requirements and responsibilities of subcontractors
- 34. Each Trade Contractor shall submit a CPM schedule utilizing Primavera Project Planner or SureTrack software within 30 days after notice to proceed. This schedule shall include all construction activities of the Trade Contractor and shall abide by all the requirements indicated in the bid documents pertaining to Critical Path Method Scheduling. Monthly updates of the schedule are required to be submitted along with the monthly Application for Payment.
- 35. The Trade Contractor shall be required to enter the RFI's, Daily Work Reports and Submittals using i-Build (requires Internet Explorer 7 or higher and active X. no other software is required). The Project Manager and Superintendent will be required to attend a two (2) hour Computer training by Gilbane which will teach them how to use this program. Refer to Manual 1 for more information on i-Build.

The above listed items are not intended to be an all-inclusive listing of the specified Contract Scope of Work, but are merely to highlight the major items of work.

**SPECIFIC ITEMS TO BE EXCLUDED**

The following specific item(s) of work contained in the above referenced documents are EXCLUDED from the work of this Bid Package (Contract):

- 1. EIFS and framing systems

**M. SPECIFICATIONS**

The following Specifications, together with the Drawings and other related items of work as described herein, further define the Scope of Work of the Bid Package (Contract).

**CERTIFICATE OF BIDDER ELIGIBILITY**

720 ILCS 5/33E-11 requires that all contractors bidding for public agencies in the State of Illinois certify that they are not barred from bidding on public contracts for bid rigging or bid rotation.

The following certification must be signed and submitted with bidder's bid proposal. **FAILURE TO DO SO MAY RESULT IN DISQUALIFICATION OF THE BIDDER.**

\_\_\_\_\_, as part of its bid for \_\_\_\_\_

\_\_\_\_\_

certifies that said contractor is not barred from bidding on the aforementioned contract as a result of a violation of either 720 ILCS 5/33E-3 or 720 ILCS 5/33E-4.

**CERTIFICATE REGARDING HUMAN RIGHTS ACT**

Any company or organization to be awarded a contract for goods and/or services must be in compliance with the **Human Rights Act** and all rules and regulations thereunder. Our company has an Equal Employment Opportunity and Affirmative Action Program which complies with Executive Order 11246, the Vietnam Era Veterans' Readjustment Assistance Act of 1974 and the Rehabilitation Act of 1973.

YES \_\_\_\_\_ NO \_\_\_\_\_

**CERTIFICATE REGARDING THE PREVAILING WAGE ACT**

Our company certifies that it is eligible for bidding on public contracts, and has complied with section 11a of the Prevailing Wage Act, 820 ILCS 130/0.01-12(2000), and has not disregarded their obligations to employees under the Prevailing Wage Act on two (2) separate occasions, and that they, or any firm, corporation, partnership or association in which such contractors or subcontractors have an interest, are not prohibited from being awarded any contract or subcontract for a public works project. In addition, Joliet Junior College is requesting all Bidders/Awarded Trade Contractors to employ labor from a recognized apprenticeship training program as a condition of award.

YES \_\_\_\_\_ NO \_\_\_\_\_

**CERTIFICATE REGARDING VALID BUSINESS LICENSE**

Our company is eligible to do business in the State of Illinois and have submitted as part of this bid a valid business license and the Federal Employer Tax Identification Number (FEIN) or Social Security Number for individuals. Further, if applicable, our company will employ apprentices who are properly indentured into a Joint Apprenticeship Training Program which is registered and certified with the United States Department of Labor, Bureau of Apprenticeship and Training.
