Joliet Junior College
Agriculture and Horticulture Scholarships

Joliet Junior College offers many opportunities for financial assistance. First, the general FASFA application can provide for state and federal government assistance. Secondly, the school offers many general scholarships for incoming freshman and continuing sophomores. A full list of those scholarships may be found on the Joliet Junior College website. However, by enrolling in the Agriculture and Horticulture Department you have more scholarships available to you than just the general scholarships.

Please make a note of the
DeWitt and Parke Holland Foundation Scholarship

This is the largest scholarship the Agriculture program offers each year. The DeWitt and Parke Holland Foundation Scholarship pays for up to 18 credit hours of tuition for both semesters of your freshman year as long as you maintain a 2.75 GPA. Similar funding may be available for your sophomore year as well. Approximately 25-30 students receive this scholarship each year.

On the reverse side of this page you will find a list of Agriculture and Horticulture Scholarships available. Scholarships vary in award amount from $250 to $1500. An application for these specific scholarships can be obtained from the Agricultural and Horticultural Sciences Department at Joliet Junior College.
