

**A tester is having problems with her
computer.**

What should you do?

Does this require an Incident Report?

A tester becomes obviously ill.

What should you do?

Does this require an Incident Report?

Proctoring – Card Three

A tester continuously looks at her flip flop and then anxiously over at you.

What should you do?

Does this require an incident report?

A tester falls asleep.

What should you do?

Does this require an incident report?

Two testers continue communicating with each other even after you ask them to be quiet.

What should you do?

Does this require an incident report?

Proctoring – Card Six

A tester walks into the testing center and asks to keep her water because she just had her wisdom teeth removed.

What should you do?

Does this require an incident report?
