

Student Accommodations and Resources (StAR)

November 12, 2009

Dear student,
Student Accommodations and Resources (StAR) wants to be sure that you are aware of the newest phase of building construction that is coming up. Kindly read the following announcement.

NOTICE

Outdoor Area Between A- and C-Buildings Tentatively Scheduled to be Closed the Week of Nov. 16

A new walkway is being constructed to provide access between the A- and C-Buildings since the current outdoor area will be closed during Campus Center construction. **This area is tentatively scheduled to be closed beginning the week of Nov. 16.**

From that point on, access between the A- and C-Buildings will only be allowed through the constructed walkway. B-Building can be accessed from the south side entrance near V-Building.

Please Note-B-Building Access 2nd floor: For students or staff members with disabilities who need to access the second floor of B-Building, you will need to take the elevator in T-Building to the second floor, and cross into the B-Building from the second floor of A-Building.

New directional signage will be posted throughout the affected areas. We appreciate your patience during this construction period.

For more information, contact Rick Lyman at ext. 2212 or ryman@jic.edu.

If you have particular concerns regarding your disability and the scheduled construction please call Student Accommodations and Resources at 815-280-2230.

Sincerely,

Jacquelyn A. Klika, manager
Student Accommodations and Resources (StAR)
