Visit Joliet Junior College on Campus Visit Day and see what college is like while classes are in session. Campus Visit Days are offered when area high schools are closed for a holiday, giving high school juniors and seniors a look at JJC’s main campus in action.

These special days are designed to help students – and their families – learn about transitioning to college, including:

- How to get started
- What student services are available to help you succeed
- How financial aid and scholarships work
- Answers to your questions about JJC
- Where to find what you need on campus with an optional general tour or Technical Department tour (beginning at 10:30 on each Campus Visit Day)

**Campus Visit Day Schedule**
