3.03.03 PARTIAL TUITION SUPPORT

The Board of Trustees (Board) of Joliet Junior College (JJC) recognizes its obligation to provide partial tuition support to citizens of Illinois Community College District 525 to attend instructional programs not available at JJC. This responsibility is established by 110 ILCS 805/6-2, of the Illinois Public Community College Act, Illinois Compiled Statutes, 1992, which states:

“If a resident of a community college district wishes to attend the community college maintained by the district of his/her residence but the program in which the student wishes to enroll is not offered by that community college, and the community college maintained by the district of his/her residence does not have a contractual agreement under Section 3-40 of this Act for such program, the student may attend any recognized public community college in some other district, subject to the provisions of Section 3-17, and have his/her tuition, as defined herein, paid by the community college district of his/her residence while enrolled in a program at that college which is not offered by his/her home community college if he/she makes application to his/her home board at least 30 days prior to the beginning of any semester, quarter or term in accordance with rules, regulations and procedures established and published by his/her home board. The payment of tuition by his/her district of residence may not exceed the per capita cost of the community college attended for the previous year, or in the case of the first year of operation the estimated per capita cost, less certain deductions to be computed in the manner set forth above for the community college tuition to be charged to the district of the student’s residence.”

The approval of the Illinois Community College District 525 funds for the support of tuition for a resident of the Illinois Community College District 525 to attend another community college district for the pursuit of an educational program

will be based upon the judgment of the college president and/or his designated representative in accordance with the following guidelines:

- A. If a student wishes to take a curriculum of studies not offered in the home community College district, but offered in another public Illinois Community College District, the home community college district will pay the non-resident portion of the tuition while he/she is enrolled in such a program. The President or designee of the College shall have the right to exercise judgment in determining whether or not the curriculum of studies offered by other community colleges are in essence curriculums that lead to the same educational goals.
- B. The pursuit of individual courses, even though not offered by JJC, will not be considered for partial tuition support unless extenuating circumstances exist for the individual making application. The judgment of what constitutes extenuating circumstances will be made by the President of the College or designee. All judgments of this nature shall be final. In instances where the receiving community college is willing to waive the out-of-district tuition charge to allow a Illinois Community College District 525 resident to take individual courses without enrolling in an associate degree or certificate program, Illinois Community College District 525 has no obligation and need not be involved in the approval process.
- C. Partial tuition support obligations engaged in by high school districts annexed to the Illinois Community College District No. 525 as of July 1, 1974, will be carried forward by the Illinois Community College District 525. In many instances, such arrangements for partial tuition support will involve persons attending other colleges enrolled in programs offered at JJC. Such enrollment and support of the Illinois Community College District 525 shall in no way be interpreted as a precedent for any future support and will be continued only as long as individuals previously approved maintain their attendance and program majors.
