4.14.00  ALTERNATIVE METHODS FOR AWARDING CREDIT

Joliet Junior College (JJC) recognizes the valuable experiential and classroom-based learning opportunities which exist outside the College structure. It is appropriate to offer opportunities for individuals to obtain College credit for individualized instruction, business and/or other agency-based training, as well as life experiences, applicable toward degrees and certificates awarded by JJC. In all cases of alternative methods for awarding credit (except for independent study), a maximum of 30 credits may be awarded. Procedures for awarding alternative credit must be reviewed by the Academic Standards Committee.
