CATEGORY 9.02.00 Open Use of Campus Grounds/Facilities	DATE Adopted: 1981 Revised: 1982 Reviewed: 4/2014, 12/2019

9.02.01 OPEN USE OF CAMPUS GROUNDS/FACILITIES - FISHING IN LAKE

The lake is the aesthetic focal point for the architecture of the Joliet Junior College (JJC) campus. The lake provides both scenic beauty and education benefits as a biological “laboratory.” The lake is not managed to develop maximum fish production, but rather to maintain a naturally beautiful appearance and a fertile biological diversity. Recreational fishing will be permitted according to established guidelines in procedure 9.02.01.00 Use of the JJC Fishing Lake.
