1.65.00 POLICY AMENDMENTS

Policy statements are extremely important to every segment of the College community and the public it serves, since they set the broad general guidelines under which procedures and regulations are developed. In order to ensure that these important policy statements receive input from every segment of the community served, any proposed new policy or revision introduced will be presented for a first and second reading before being approved by the Board of Trustees upon the third reading.

The intent of this policy is to allow for sufficient time for study and reaction by the various segments of the College community and the public served by the College. In limited cases where an expedited process is required to comply with a change in law or regulation, approval must be requested from the President and the Chair Person of the Board in advance. Once approved, the policy will follow the same internal review process and will be presented to the Board for approval with one reading.
