Commvault	<p>Attached is the solution description and a quote for 1 year of Commvault's backup solution for O365. The solution is managed through a simple web interface, can run entirely in Azure and provides users with self-service recovery. The licensing quoted also provides protection of OneDrive, SharePoint and other applications associated with O365.</p> <p>Full documentation for the solution can be found here: https://documentation.commvault.com/commvault/v11/article?p=microsoft_office_365_backup.htm</p> <p>I realize that this bid is not being submitted properly. If an extension can be granted I can connect with one of our many reseller partners (SHI, CDW...) and make the formal submission. Alternatively, many of Commvault's resellers carry purchasing contracts that can be used in lieu of the RFP if that is desired.</p> <p>If your IT team would like to learn more about the solution I live in the JJC district and can come on site to do a demo and answer any questions they may have.</p> <p>Thank you for your understanding and consideration.</p>	12-MONTH LICENSE TO BACKUP O365 FACULTY/STAFF ACCOUNTS	2000	\$ 12.58	\$ 25,160.00				No

Urban Communications	Thank you for the opportunity to bid you Office 365 Backup. I have filled out your form with various options in an attachment with other pricing for license pricing and cloud storage pricing. Should we be chosen for your solution, we would like to discuss your backup strategy for incremental and full backups. The options available for licenses are 1, 3 and 5 year all paid upfront, a 3 year option billed annually for each of the 3 year commitment and a monthly option and if you like we can bill annually upfront but pricing is subject to small increases each year only if Veeam raises their prices to everyone.	12-MONTH LICENSE TO BACKUP O365 FACULTY/STAFF ACCOUNTS	2000	\$ 16.20	\$ 32,400.00		See attachment for other License		No
