\*This transfer guide is a sample curriculum. Additional courses may be required based on placement test scores. Please work with your faculty advisor or success coach prior to course registration.

\*\*Courses are to be chosen in consultation with an academic advisor.

#### About SIU's Program:

SIU embraces a unique tradition of access and opportunity, inclusive excellence, innovation in research and creativity, and outstanding teaching focused on nurturing student success. As a nationally ranked public research university and regional economic catalyst, we create and exchange knowledge to shape future leaders, improve our communities, and transform lives. \*Most off-campus students satisfy the University Core Curriculum requirement by completing courses at accredited institutions of higher learning and then transferring those courses to SIUC or by credit received through CLEP, USAFI, DANES, or proficiency examination.

#### About JJC's Program:

The program consists of a balance between basic general education and professional coursework that provides the educational background demanded by today's police service. It provides students with an insight of the legal system, giving them a broad range of career options. Students can expect to learn not only about police procedures and policies, but about the judicial system as a whole. As an increasing number of police academies at the state and local level are requiring at least two years of college education as a prerequisite for employment, JJC offers a comprehensive program that touches on most aspects of law enforcement. The program places emphasis on critical thinking, communication and technological literacy as well as legal procedures.
