 ART 4920 Portfolio Preparation
 Elective 3-4 credit hours

Total JJC Credits: 60

Total CSU Credits: 60

Total Degree Credits: 120

JJC Faculty Advisor: Chuck Gneich
 815-280-2312
cgneich@jjc.edu

CSU Advisor: Office of Admissions
 773-995-2513
ug-admission@csu.edu

***If Math course is less than 4 credit hours, one additional credit hour is required due to waiver of ART 1101. A 4 credit hour science lab would also provide this additional credit hour.**

2+2

This transfer guide is a sample curriculum. Additional courses may be required based on placement test scores. Please work with your faculty advisor or success coach prior to course registration.

About CSU's Program:

The art curriculum has flexibility to allow students to pursue, in depth, their own personal interests in art.

To build portfolios, Art & Design majors are required to participate in a portfolio review process three times during their matriculation for a degree: sophomore, junior, and graduating senior portfolio reviews.

The program is housed in a building with spacious, well – equipped, specialized art and design studios, and an Apple computer lab. There are two galleries on campus with regularly scheduled exhibitions. The President's Gallery exhibits work of regionally and nationally known artists while the University Gallery is focused on exhibiting student work. Each year, our galleries showcase our best and brightest in the annual Student Competition and the Senior Portfolio Exhibition.

About JJC's Program:

Graphic designers work for advertising agencies, design studios, local businesses, corporate offices, public relations departments or as freelancers. Using computer software to create digital illustrations and layouts, they produce advertisements, brochures, magazines and other materials.

The mission of the Graphic Design program is to provide students with industry-relevant and competency-based academic programs built on a solid art and design foundation that will prepare them for transition to a four-year college or university, or entry-level employment in graphic design production and related fields.

The AAS degree in Graphic Design, begins with the foundations courses: Drawing, 2d and 3d design; and progresses with the study of Typography, Digital Imaging, Layout & Composition, Digital Illustration and Corporate Identity.
