*This transfer guide is a sample curriculum. Additional courses may be required based on placement test scores. Please work with your faculty advisor or success coach prior to course registration.

**Courses are to be chosen in consultation with an academic advisor.

About SIU's Program:

SIU embraces a unique tradition of access and opportunity, inclusive excellence, innovation in research and creativity, and outstanding teaching focused on nurturing student success. As a nationally ranked public research university and regional economic catalyst, we create and exchange knowledge to shape future leaders, improve our communities, and transform lives. *Most off-campus students satisfy the University Core Curriculum requirement by completing courses at accredited institutions of higher learning and then transferring those courses to SIUC or by credit received through CLEP, USAFI, DANTES, or proficiency examination.

About JJC's Program:

Emergency medical services (EMS) has undergone a great expansion in the last 10 years. There has been a shift from volunteer agencies to full-time agencies that not only respond and treat emergencies but play an active role in injury prevention. With this shift, the demand for educated EMS personnel has grown significantly. The EMS program is designed to prepare individuals for a wide spectrum of careers including fire service, hospital emergency department technicians, physicians' offices, or clinics.
