2+2

*This transfer guide is a sample curriculum. Additional courses may be required based on placement test scores. Please consult your faculty advisor for guidance on electives and prior to course registration.

**Courses are to be chosen in consultation with an academic advisor.

About GSU Program:

Private, public, and government sectors all use the skills and knowledge of economists to help forecast risk and opportunity. Governors State's Bachelor of Arts in Economics will prepare you to aid in the health and stability of a variety of organizations. With foundational skills in economics, you will also be prepared to go on to study at the graduate level, in either economics or related fields, such as law, public administration, and business. The Bureau of Labor Statistics projects a 6% growth of demand for economists over the next decade due to an increasingly complex global economy, changes to financial regulations, and a more competitive U.S. and international business environment.

About JJC's Program:

Associate in Arts degrees are for those intending to transfer to a four year university after JJC and major in the social sciences, humanities, fine arts, and other majors falling under the arts. See the Associate in Arts page for curriculum requirements.
