Courses taken at Lewis University**First Semester**

THEO 10600	Intro to Theology
PHIL 3300	Ethics

Second Semester

HEM 10500	Organic & Biochemistry
BIOL 27000	Pathophysiology

Third Semester

NURS 30600	Concepts
NURS 31200	Health Assessment

Fourth Semester

URS 30100	Evidence Based Practice
NURS 34000	Pharmacotherapeutics

Fifth Semester

NURS 43200*	Promoting Health Com Workshop X2
-------------	-------------------------------------

Sixth Semester

NURS 40200	Professional Development
NURS 43510	Leadership Practicum

Total Lewis University Credits: 50****Total Degree Credits: 137****

*Upon completion of NURS 43200, student will be awarded 12 hours of PLA for their Nursing License Obtainment.

3+1

**This transfer guide is a sample curriculum. Additional courses may be required based on placement test scores. Please work with your faculty advisor or success coach prior to course registration.

**Courses should be selected in consultation with an advisor.

About Lewis University's Program:

Lewis faculty will work with you to develop a compassionate, holistic approach to patient care - it is about addressing physical symptoms while caring for the heart, mind and soul. You will become an expert practitioner and innovative leader who will transform practice in an increasingly complex healthcare system.

You will work one-on-one with faculty who have real world experience in our state-of-the-art simulation hospital rooms and acute care labs with Sim Manikins. Students learn the latest techniques, practice problem-solving and develop clinical judgment based on patient symptoms in a safe, supportive environment. Our Oak Brook location offers graduate nursing students the ideal setting to advance their knowledge to become nurse practitioners. Many of our MSN specializations and DNP are offered online for the convenience of working adults. Your exposure to various clinical sites provides you with experience working with diverse patient populations. We believe that each person is unique and deserves to be treated with dignity and respect.

For more than 40 years Lewis University has provided nursing graduates to Chicago and its surrounding suburban hospitals and primary care facilities. As a result, our extensive network of healthcare partners provides our students with a variety of learning experiences, putting our students where patients are located, tackling real world healthcare issues. Our curriculum is continually being modified to meet the demands of the healthcare system.

About JJC's Program:

Today, more than 100 students graduate from both the practical nurse program and the registered nurse program annually. Our students have the benefit of a state-of-the-art simulation center in the Health Professions Center. High-fidelity simulation enhances our students' education and adds to the realism of the learning experience. The 2019 figures from the National Council Licensure Examination (NCLEX) show the rates for candidates who have completed the registered nurse (RN) and licensed practical nurse (LPN) tests for the past five years. It is based on their completion of the licensure examinations for the first time upon graduating from an Illinois-approved nursing education program. JJC's first-time pass rate in 2019 for the NCLEX-RN was 99 percent. That's well above national and state averages of 88 and 88 percent, respectively. JJC had the second-most graduates in the state from an associate degree program. As for the NCLEX-PN, JJC's first-time pass rate in 2019 was 99 percent. By comparison, the national rate was 86 percent and state rate 89 percent.
